

A Trusted Partner for Utilities & Renewables

Leveraging technology to build a resilient, clean, and affordable energy future.

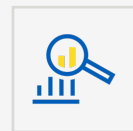

Energy is the cornerstone of the US economy, underpinning its strength and stability. Efficiently distributing that energy is crucial, yet challenges abound. Our utility and renewable energy clients face daily obstacles with complex operations, grid modernization, increasing adoption of renewables, and rising customer expectations—not to mention the constant navigation of regulatory changes and policy shifts.

For more than 25 years, CapTech has addressed challenges like these head-on, partnering with leading energy companies on digital transformations to deliver measurable business outcomes. And now, with advancements in AI, our efforts are accelerated, helping companies improve efficiency, optimize exploration, decrease safety incidents, and make faster decisions.

MEASURABLE CLIENT OUTCOMES

Millions in team member efficiency savings through digital transformations

Significant reduction in safety incidents through predictive analytics

+25% in savings in maintenance costs through system modernizations

+200% increase in circuits reviewed annually through modernizations and automation

Grid Resiliency Solutions

CapTech has pioneered multiple solutions to expedite grid resiliency, including automated reporting, forecasting project costs and timeline optimizations, easement acquisition tools, and program management solutions.

Digital Twins & Preventative Maintenance

We specialize in helping our clients implement digital twin technology and leverage anomaly detection to transform costly reactive operations into continuous preventative maintenance by addressing issues before they escalate, ensuring smoother and more efficient operations.

Sustainability Solutions

To help our clients achieve their decarbonization and sustainability targets, CapTech has developed comprehensive solutions that enable energy clients to optimize their reduction projects, meet their emissions goals, and easily deliver required EPA reporting.

Safety Mitigation Solutions

Driven by a company's need to protect personnel, the environment, and critical assets, we help harness historical data, external data sources and, using AI, reduce the frequency and severity of incidents.

Let's do next together.

CapTech.

captechconsulting.com

CapTech is a national consulting firm that helps clients grow efficient, successful businesses. We do so by bringing the data, systems, and ingenuity organizations need to stay ahead and transform what's possible in a changing world. Here, we're master builders, creators, and problem solvers who find inspiration in the unknown and enjoy getting our hands dirty as we design solutions for each client. Across industries and business goals, we fuse technical depth and analytical prowess with creative savvy to ignite innovation and move business forward. This drive helps each organization use technology, management, and insight to turn ideas into action. Together, we create outcomes that exceed the expected — which is one of the reasons we've been on the Inc. 500/5000 list for over a decade.
